

VERSION 1.0 · 2025

This document defines the visual and verbal identity of Karebo. It ensures a consistent, professional, and recognisable presence across all touchpoints — from product UI to stakeholder communications.

01 — LOGOTYPE

Logo System

Minimum clearspace — ½× icon height on all sides

02 — COLOUR

Colour System

Brand gradient — hero & marketing use only

03 — TYPOGRAPHY

Type System

Primary typeface **Manrope** — Google Fonts, variable weight 300–800

04 — ICON

Icon Usage

Minimum sizes

Never use below 20px digital / 6mm print. The inner filament and base details must remain legible at minimum sizes.

05 — LOGO RULES

Do's and don'ts

06 — VOICE

Brand Voice & Tone

"Karebo is the intelligent backbone of your energy operations — clear, data-driven, and always one step ahead."

WE ARE

- Clear and direct — no jargon
- Confident but not arrogant
- Data-led, evidence-backed
- Professional and reliable
- Empowering to operators

WE ARE NOT

- Overly technical or dense
- Casual or colloquial
- Alarmist about issues
- Vague or non-committal
- Corporate-speak heavy

WRITE LIKE THIS

"Your site consumed 12% more energy last week. Here's what changed and how to fix it."

NOT LIKE THIS

"We've detected a potential anomalous deviation in your energy consumption metrics that may require your immediate attention and remediation efforts."

07 — SPACING

Spacing Scale

Border radius: 4px small elements · 8px inputs & buttons · 10px cards · 16px+ panels
